VISION Relocation Group Announces Government Contract Award

Chantilly, Va.- January 12, 2010 - VISION Relocation Group[®], a global provider of relocation management and consulting services for corporations and the government, today announced that it has been awarded a contract by United States Government General Services Administration (GSA) to provide employee relocation services (contract #GS-33F-0014W). The contract covers VISION's total suite of employee relocation services, training and consulting to help government agencies support employee mobility and is valid for five years.

VISION's new contract offers government agencies direct access to commercially proven employee relocation services that result in lower administrative costs and higher employee satisfaction.

"VISION is large enough to meet each agency's employee relocation requirements and committed to forming close partnerships," said VISION President & CEO, Rebecca Spencer. "Our '*Service First*' philosophy is engrained in our culture. Our professionals have the depth of experience to guide agencies and their transferees through the challenges of the current economic, employment and real estate markets. We're committed to bringing government agencies what our corporate customers already enjoy...a truly consultative, flexible approach to employee relocation."

When using VISION Relocation Group's GSA schedule contract, government organizations are also fulfilling small business goal requirements, as VISION is a small, woman-owned business.
